

# Installing the Import/Export Plugin 1.3.1 in Domino Designer 8.5.2

Author: David Turner

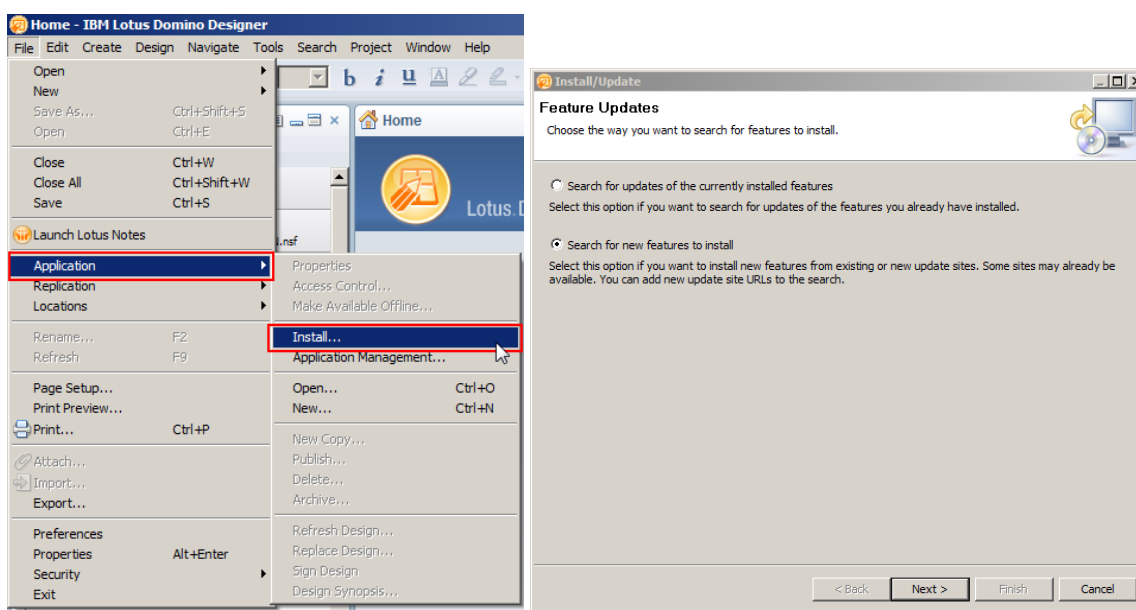

## Enable Custom Plug-ins

- 1) File -> Preferences -> Domino Designer -> Enable Eclipse plug-in install

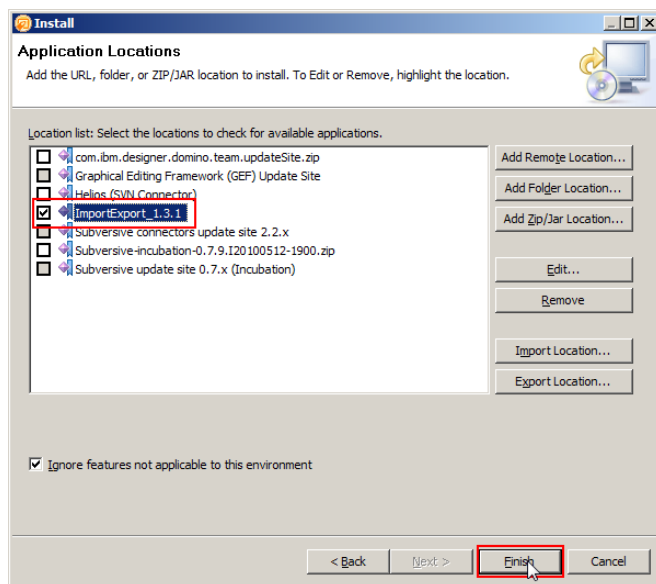

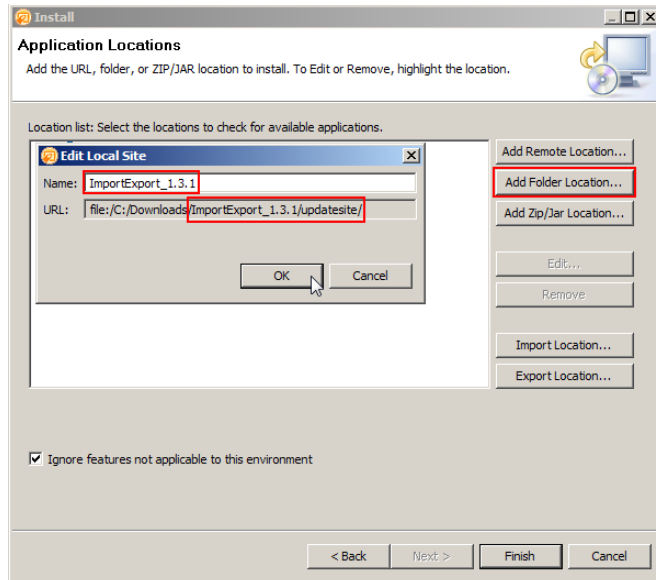

## Install Plug-in

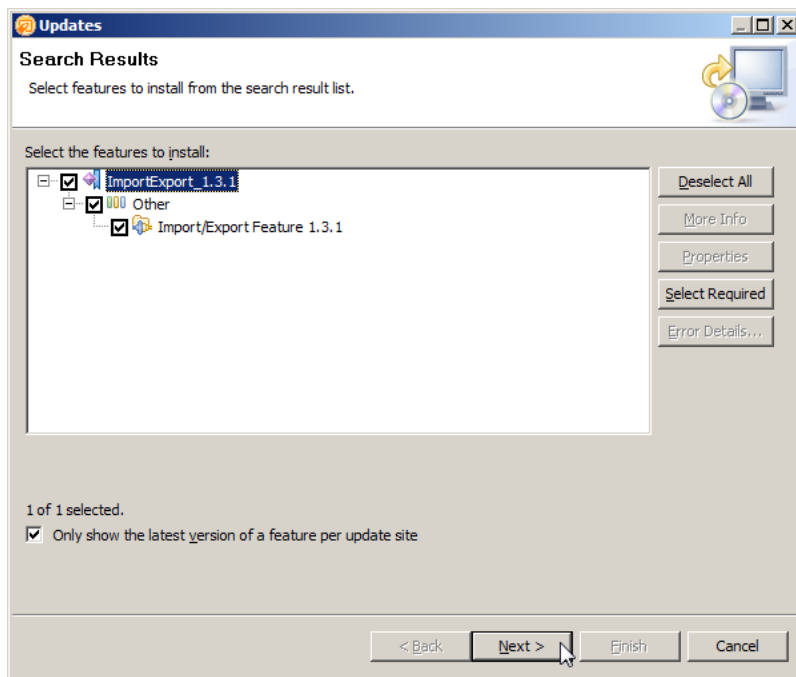

- 1) Extract the ImportExport zip file to a temporary location.
- 2) File -> Application -> Install... -> Search for new features -> Next

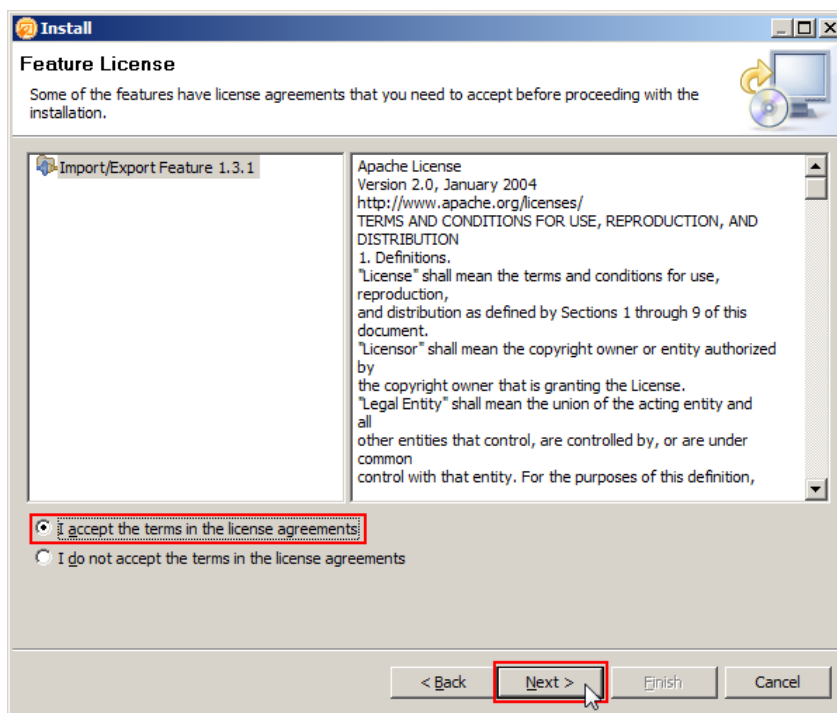

3) Add Update Site folder location -> Select folder location /updatesite/ -> Finish

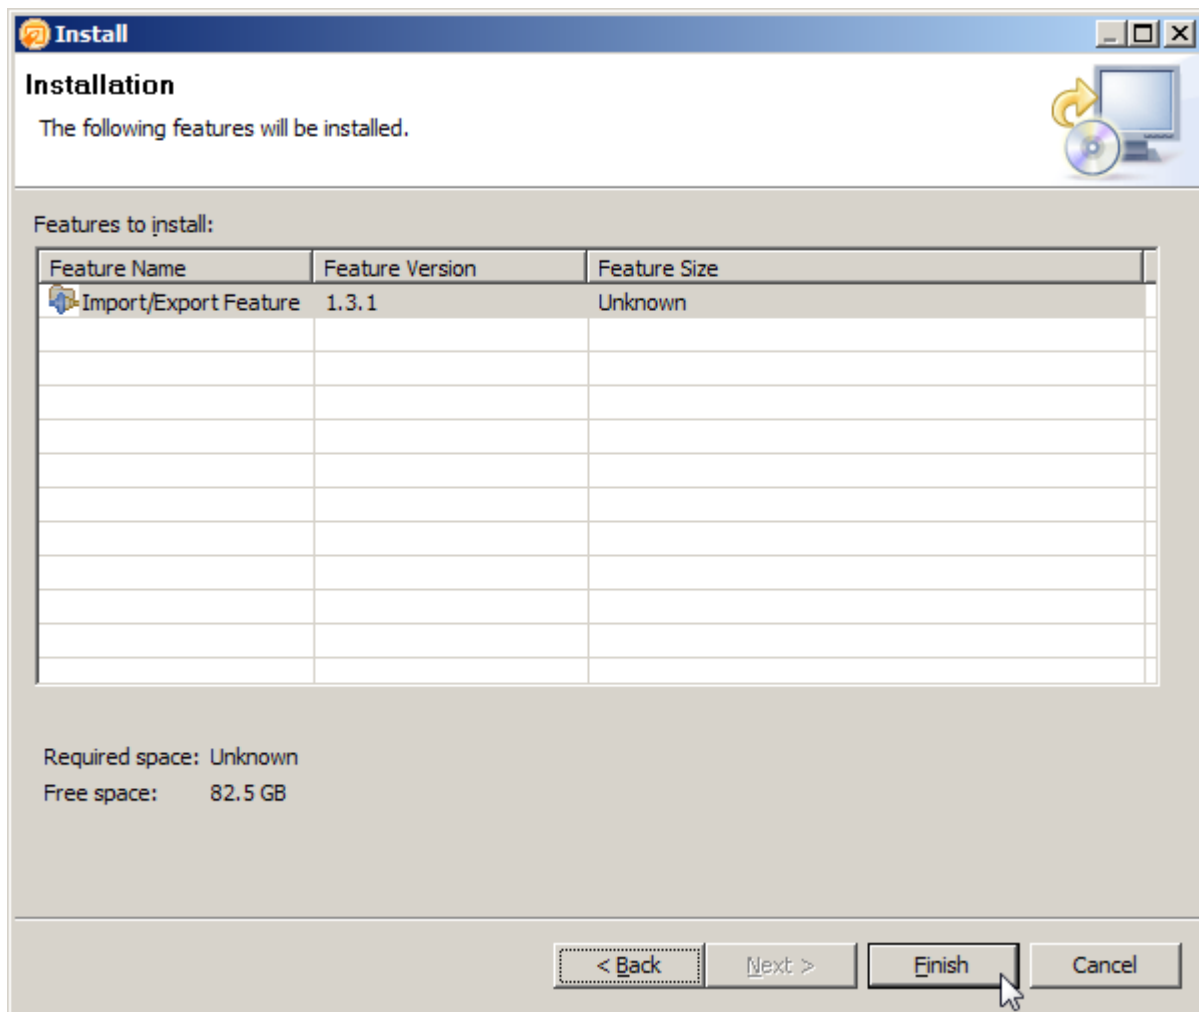

4) Select features to update: ImportExport -> Next

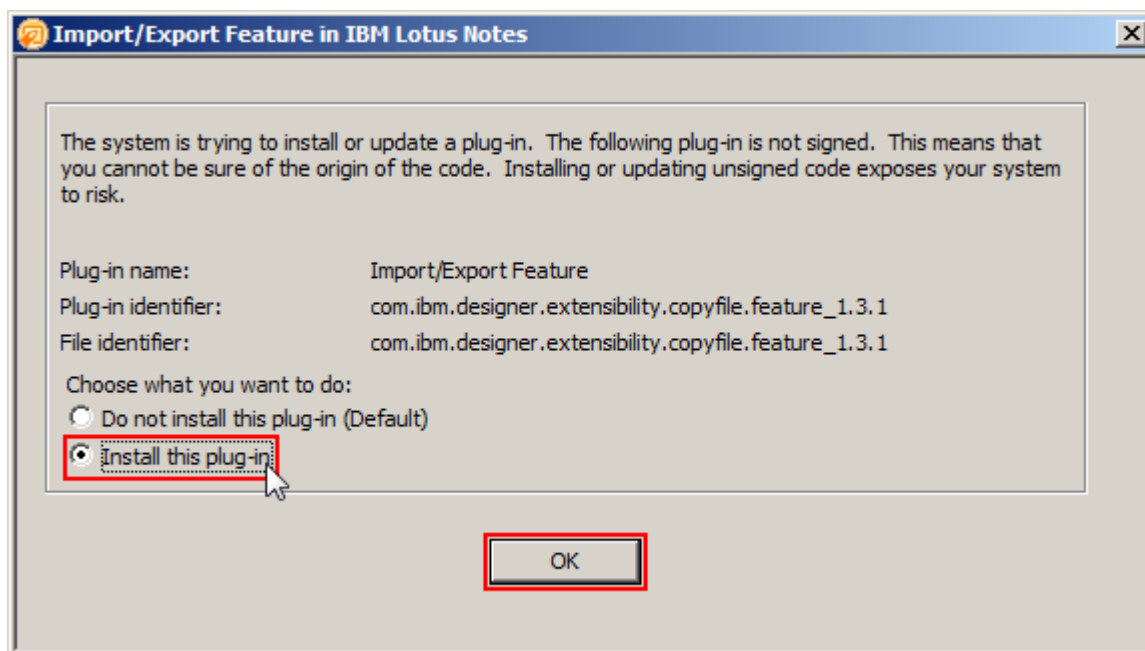

5) Accept the terms in the license agreement -> Next

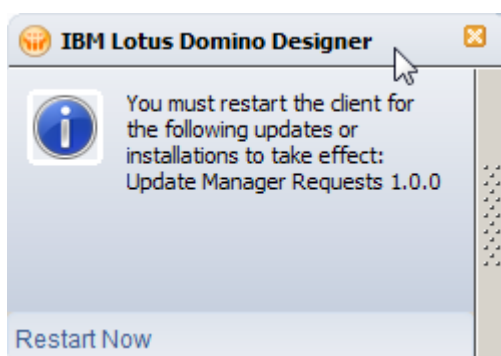

6) Confirm Install features -> Next

7) Confirm installation of ImportExport plugin -> OK

8) Restart all instances of Notes and Designer

See the bundled README pdf for information on how to use this plugin to Import/Export design elements.
